

Signing up for a Webinar: What to expect

When you register for a webinar using GoToWebinar you will click on the link provided.

Enter your first and last name and email address.

You will then receive an email in your inbox. Please keep this email handy! This has the link for the night of the webinar.

Just for your information when businesses purchase a webinar package they purchase a certain number of seats. The NNPDF Webinar package has seats for 100 individuals. Meaning even though 300 people may register for the first 100 individuals to click on the link the night of the webinar will be allowed in. We will be recording the webinar so once it is all ready to go we can have that available.

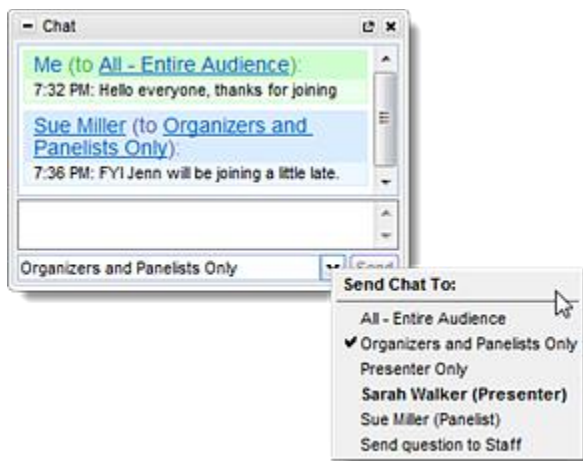

On the night of the webinar

Open your email that you received.

Click on the link. I recommend doing that about 30 minutes before the webinar to be sure all systems are working correctly. Then go about your business until about 5 minutes before the webinar begins. Then sit back and enjoy the presentation.

There is a chat area in GoToWebinars that will be functioning during the webinar. You can send your questions to the entire audience or just to the staff.

It looks like this:

Type in your question and then hit send!

Below are some system requirements for attendees

You can easily attend a session from anywhere, anytime using a compatible computer or mobile device!

Join by downloading on Windows or Mac

To get the most out of GoToMeeting, you can download and install the full-featured desktop software on your Windows and Mac computer.

Operating system	Windows XP – Windows 10 Mac OS X 10.8 (Mountain Lion) – 10.11 (El Capitan)
Web Browser	Google Chrome v39 or later Mozilla Firefox v34 or later Internet Explorer v8 or later Microsoft Edge Apple Safari v6 or later
Internet connection	1 Mbps or better (broadband recommended)
Software	GoToMeeting desktop app JavaScript enabled
Hardware	2GB or more of RAM Microphone and speakers (USB headset recommended **) Webcam (to use HDFaces)

****Note:** Most devices have built-in speakers, but you will get much better audio quality while using VoIP if you use a headset. You can also use your phone to [dial in](#) to the audio connection.

Join from a web browser (no download required)

Using the GoToMeeting Web App, you can join meetings entirely within your web browser (rather than installing and using the GoToMeeting desktop app).

Operating system	Windows Mac Linux / Ubuntu Google Chrome OS (Chromebook)
Web Browser	Google Chrome v39 or later * Mozilla Firefox v34 or later Internet Explorer v9 or later Apple Safari v6 or later

Internet connection	1 Mbps or better (broadband recommended) 3G connection or better (WiFi recommended for VoIP audio) for Chromebooks
Software	GoToMeeting Pro Screensharing extension for Google Chrome (if Presenter)
Hardware	Microphone and speakers (headset recommended**) Webcam (to use HDFaces)

****Note:** Most devices have built-in speakers, but you will get much better audio quality while using VoIP if you use a headset. You can also use your phone to [dial in](#) to the audio connection.

Join from iOS

You can use the [GoToMeeting app for iOS](#) to join meetings from anywhere! If you are an organizer, you can also use the app to schedule, manage and start meetings. [Learn more.](#)

Operating system	iOS 8 or later
Device	iPhone 4s or later iPad 2 or later
