

Niemann-Pick Disease Awareness Month

October 2018

Sample Request for a Proclamation

October is Niemann-Pick Disease Awareness Month and you can help raise awareness in your state!

The NNPDF Central Office has already contacted the State of Wisconsin to get their proclamation and you can too! All you have to do is find the link for your state on the document below. Some have an easy form that you fill out right on the website and others have a contact us link that you can use to request the proclamation or get more information (each state is different).

{LINK}

If you are interested in getting a proclamation you will need to do so right away. Some states require 30 days' notice. Some states will ask you to specify a date on the form you can pick a date. The NNPDF chose October 15th as our state requires a specific date.

If you need sample wording you can use:

Whereas, Niemann-Pick Disease is a devastating metabolic disease that affects children and adults, and

Whereas, Niemann-Pick Disease is a rare genetic illness that is difficult to diagnose, and

Whereas, Niemann-Pick Disease has no known cure or treatment, and

Whereas, families in {insert your state} and throughout the United States are known to be affected by this disease, and

Whereas, promoting awareness of the disease will aid in funding research, improving diagnosis and finding a cure,

Therefore, it is proclaimed that October 2018 is Niemann-Pick Disease Awareness Month.

Once you receive your proclamation please feel free to scan it and email a copy of it to the NNPDF Central Office at nnpdf@nnpdf.org. Then we can put it up on our website with all the others. Then you too can share it with others on your social media. Get the word out and let everyone know about Niemann-Pick Disease.

If you need assistance in completing your form, please contact the NNPDF Central Office at nnpdf@nnpdf.org.
